◆ SUSPECT IN 5 ROBBERIES IS CAUGHT

Athens police have arrested a man who is suspected in five armed robberies in the city since April 11th. Joseph David Tillman, 32, of Clearwater Road, Athens, was arrested Wednesday morning at the Athens Greyhound Bus Station as he prepared to board a bus. He has been charged with armed robbery. He is a suspect in robberies at the Hardee's in downtown Athens, the BP station on West Madison Avenue, and the Jiffy Markets on Eastanallee Avenue and Decatur Pike.

◆ THIRD ROBBERY AT WALGREENS

Wednesday afternoon, a tall, thin white male robbed the Walgreens Pharmacy on Congress Parkway in Athens. Employees told APD that the man approached the pharmacist and demanded medications. He then fled the scene with an undertimed amount of medications. Police checked the area, but no contact was made with the suspect. It was the third robbery at that same Walgreens in recent weeks. On April 11, a white female with a revolver in her waistband held up the pharmacy department. On May 8th, a tall young white man armed with a shotgun took narcotics and cash. In Wednesday's holdup, the robber did not show a weapon. He was described as a tall, young white male with a goatee.

NATIONAL & WORLD NEWS

◆ Guards at New York City's Rikers Island jail complex are taking special precautions to make sure IMF chief Dominique Strauss-Kahn doesn't come to any harm behind bars. He has an entire jail wing to himself, has a medical device to make sure he doesn't stop breathing during the night, and guards check him 24 hours a day to make sure he doesn't kill himself. Strauss-Kahn is being held on charges of trying to rape a hotel maid.

◆ Several cups of coffee a day apparently helps prevent prostate cancer. Researchers at the Harvard School of Public Health say men who drink six or more cups of coffee a day, with or without caffeine, are 60% less likely to develop prostate cancer. Even those drinking three cups a day lowered the risk by 30%. Researchers say it is the antioxidants and anti-inflammatory compounds in coffee that affect the body's insulin levels and sex hormone levels, both of which have been linked to prostate cancer.

◆ A 114-year-old Brazilian woman is the world's oldest living human. Guinness World Records says Maria Gomes Valentim is 48 days older than Besse Cooper from Monroe, Georgia. Valentim attributes her longevity to eating a daily roll of bread for breakfast along with fruit, though she does indulge in the occasional nip of wine.
