TODAY IN HISTORY - OCTOBER 19TH

1781 - The American Revolutionary War drew to a close as Britain's Lord Cornwallis surrendered more than 7,000 of his troops at Yorktown, Virginia.

1879 - After hundreds of unsuccessful tries, inventor Thomas Edison finally succeeded in demonstrating his new electric light bulb.

1960 - The United States imposed an embargo on exports to Cuba.

1973 - The Arab oil-producing nations imposed a total ban on oil exports to the U.S. and declared a 10% cut in production to put pressure on the U.S. and its western European allies to force Israel to withdraw from Arab lands. The oil embargo triggered an energy crisis and a severe recession in the U.S. and Europe for two years.

Power Rates Go Down!

Athens Utilities Board's (AUB) power rate for November will go down compared to the October rate. This is based on TVA lowering its fuel cost adjustment somewhat, to \$0.03099 from the current October level of \$0.03342. AUB's portion of the rate for the month is exactly what it was last month, because both October and November are in the "transition" season. The new rate move will take the November power rate down to \$0.10142 from September's current level of \$0.10385. AUB representatives, along with many other power company managers, recently spoke with TVA to discuss the ever-growing TVA fuel charge, which is added to the local power providers' actual rate for the month. "The cost of natural gas, which TVA purchases significantly to fire many of its power generation plants, has risen significantly over the past year and this is affecting our end rates pretty dramatically," said AUB's Wayne Scarbrough. AUB's power rate has increased less than eight percent in the past 25 years. However, TVA has increased its rate by more than 62 percent in fewer than 20 years. "Those are facts that weigh heavily on us and we hope are weighing in the minds of TVA management as well," Scarbrough said. About 83 cents of every dollar that AUB's power division collects go to TVA for wholesale power

TUESDAY'S MARKET REPORT: Equities were higher once again. Global equities followed suit, led by gains in the Asian markets. Oil and gold prices were lower. All sectors traded higher, with financials, materials and industrials among the strongest outperformers. At the closing bell, The Dow Jones Industrial Average was up 337.98 to 30,523.80. The Standard & Poor's 500 Index was up 42.03 to 3,719.98, and the NASDAQ Composite Index was up 96.60 to 10,772.40.
